Experiment 11

Multithreading

code:

```
#include <stdio.h>
#include <pthread.h>
void *show(void *arg) {
printf("%s\\n", (char *)arg);
return NULL;
}
int main(void) {
pthread_t t1, t2;
pthread_create(&t1, NULL, show, "Hello from Thread 1!");
pthread_create(&t2, NULL, show, "Hello from Thread 2!");
pthread_join(t1, NULL);
pthread_join(t2, NULL);
return 0;
}
```

Output:
